

# Table of Contents

Anthony (Tony) Barringer .....	3
Introduction. <i>Peter M D Bradshaw</i> .....	5
<b><u>PART ONE - EXPLORATION</u></b>	
<b><u>Mineral Exploration</u></b>	
1. Airborne Geochemistry for Mineral Exploration for Sub-Outcropping, Blind and Buried Mineral Deposits – AIRTRACE <i>P.M.D. Bradshaw, R.E. Lett, B.W. Smee, I. Thomson</i> .....	7
2. Biogeochemistry of Plants with an emphasis on Plant Leachates and Particulates Related to Mineral Exploration <i>W. Beauford, P.M.D. Bradshaw, J. Barber</i> .....	33
3. Surface Micro-layer and Vegetation Sampling for Mineral Exploration, - SURTRACE <i>P.M.D. Bradshaw, R. Lett, B.W. Smee, I. Thomson</i> .....	59
Footnotes to Section One .....	75
<b><u>Oil and Gas Exploration</u></b>	
4. An Airborne Geochemical Method for Hydrocarbon Exploration Using Particulates Generated by Micro-Seeps with an Emphasis on Marine Environments - AIRTRACE <i>P.M.D. Bradshaw, I. Thomson</i> .....	77
5. The Identification of Hydrocarbons on the Water Surface from an Aircraft by Laser Fluorescencing for Hydrocarbon Exploration and Monitoring Oil Spills - FLUORSCAN <i>Robert Dick, P.M.D. Bradshaw</i> .....	85
<b><u>PART TWO – ENVIRONMENT AND SECURITY</u></b>	
6. Correlation Spectrometer for remote sensing of SO <sup>2</sup> and NO <sup>2</sup> - COSPEC <i>H. H. Zwick, P.M.D. Bradshaw</i> .....	95
7. Barringer Correlation Interferometer <i>H. H. Zwick, R. Dick, P.M.D. Bradshaw</i> .....	111
8. The Remote Detection of Gases for Exploration, Environmental Monitoring, and Chemical Warfare - GASPEC. <i>H. H. Zwick, P.M.D. Bradshaw</i> .....	117
9. Ion Mobility Spectrometer for Explosives and Drug Detection - IONSCAN <i>P.M.D. Bradshaw</i> .....	125
<b><u>PART THREE – ANALYSIS</u></b>	
10. Laser Ablation Analysis of Geological, Plant and Related Material - LASERTRACE <i>P.M.D. Bradshaw</i> .....	129
11. Portable Radiometers – Hand Held Ratioing Radiometer - HHRR and Reflectance Spectrometer and REFSPEC <i>R. Dick, P.M.D. Bradshaw</i> .....	135
12. Sensitive Mercury Spectrometers for the detection of Mineral Deposits, Airborne Mercury Pollution and Underground Nuclear Explosions <i>P.M.D. Bradshaw</i> .....	139
13. An Instrument to Monitor the Loss of Heavy Water (D <sub>2</sub> O) in Nuclear Plants <i>P.M.D. Bradshaw</i> .....	151
Appendix 1. INPUT airborne time-domain. <i>L.E. Reed</i> .....	155
Appendix 2. People who assisted in putting this volume together .....	157
Appendix 3. Patents .....	159
